EDUCATION

R T E Society Rural Engineering College, Hulkoti	2023 – 2027
Bachelor of Engineering (BE)	CGPA: 8.58
Devika PU College, Ranibennuru	2021 – 2023
Pre-University (PCM)	Percentage: 88%
BES School, Byadgi	2020 – 2021
SSLC	Percentage: 88.96%

EXPERIENCE

GirlScript Summer of Code (GSSoC) May 2026 – Aug 2026
Open Source Contributor

- Contributed to open-source repositories by fixing bugs and implementing new features.
- Submitted pull requests and collaborated with maintainers using Git and GitHub workflows.
- Worked with developers in a collaborative environment while improving code quality and documentation.
- Gained practical experience in version control, code reviews, and open-source software development.

Thiranex India June 2026 – Jul 2026
Full Stack Development Intern

- Developed and enhanced **full-stack web applications** by implementing responsive frontend interfaces, backend services, and application workflows.
- Built reusable **UI components** and responsive web interfaces with a focus on usability, accessibility, performance, and cross-browser compatibility.
- Developed and integrated **RESTful APIs** for client-server communication, API integration, data processing, and dynamic application functionality.

Workora September 2026 – October 2026
Full Stack Development Intern

- Developed multiple web applications including a **Live Query Filter System, User Authentication with JWT, Team Availability Tracker, and Quote Generator with History.**
- Implemented **dynamic filtering, user authentication, JWT-based authorization, API integration, and real-time data handling** to build interactive and secure web applications.
- Built additional applications such as a **Coffee Rating Application, User Profile Card Generator, and Quick Note Application**, focusing on responsive UI, reusable components, and client-side functionality.
- Gained hands-on experience in **HTML, CSS, JavaScript, REST APIs, authentication, Git, and GitHub** while developing and testing application features.

PROJECTS

E-Commerce Style Wardrobe | *TypeScript* | **Code** | **Live**

- Developed an e-commerce web application inspired by Flipkart and Meesho.
- Implemented category-based filtering (Men, Women, Kids) for improved user navigation.
- Designed a responsive and user-friendly interface for seamless shopping experience.

Personal Portfolio Website | *HTML, CSS, JavaScript* | **Code** | **Live**

- Built a responsive portfolio to showcase projects, skills, and contact details.
- Structured clean UI sections for better readability and presentation.

Amazon Clone | *HTML, CSS, Responsive Web Design* | **Code** | **Live**

- Developed a responsive e-commerce interface using **HTML5, CSS3, Flexbox, and responsive web design.**
- Implemented structured navigation, search interface, product categories, hero banner, and product sections.

- Applied reusable UI components and responsive layouts for cross-device compatibility and improved user experience.

Weather Checker Application | *JavaScript, TypeScript* | **Code** | **Live**

- Developed a weather application to fetch real-time temperature and weather information.
- Implemented city-based search with responsive UI for quick and accurate weather updates.

FoodHub – Online Food Ordering Website | *HTML5, CSS3, JavaScript, Responsive Web Design* | **Code** | **Live**

- Developed a responsive **food ordering web application** using HTML5, CSS3, and JavaScript with interactive UI components.
- Implemented dynamic **shopping cart functionality**, including add, remove, update, and automatic price calculation.

GitHub Profile Finder – Developer Search Application | *HTML5, CSS3, JavaScript, GitHub REST API* | **Code** | **Live**

- Developed a responsive developer search application using **JavaScript and GitHub REST API** to retrieve and display user profiles.
- Implemented **API integration, asynchronous data fetching, JSON parsing, and dynamic DOM manipulation** for real-time profile data.
- Added **input validation and API error handling** for invalid usernames and failed requests, improving application reliability.

Hate Speech Detection using Machine Learning | *Python, Machine Learning, NLP, Scikit-learn* | **Code**

- Developed a **machine learning classification model** to identify and classify hate speech and non-hate speech from text data using **Python, NLP, and Scikit-learn**.
- Performed **text preprocessing, tokenization, feature extraction, and data cleaning** to transform raw textual data into machine-learning-ready features.
- Implemented and evaluated **text classification algorithms** using model evaluation techniques to analyze prediction performance and classification accuracy.

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, TypeScript

Frontend: HTML, CSS, JavaScript

Backend: Node.js, Express.js, REST APIs

Database: MySQL, MongoDB

DevOps: Linux, Git, GitHub, Docker, Kubernetes, Terraform, AWS (Learning)

UI/UX: Figma, Wireframing, Prototyping, Responsive Design

CERTIFICATIONS

• Full Stack Development Internship – Thiranex India	Certificate
• Spotify Clone using React – LetsUpgrade	Certificate
• MySQL – HackerRank	Certificate
• Generative AI, LLM, RAG – GeeksforGeeks	Certificate
• Java Full Stack Web Development – Udemy	Certificate
• Craft Precise Prompts for AI Models – IBM	Certificate
• IBM Design – IBM	Certificate
• IBM project – IBM	Certificate

CODING PROFILES

Solved 100+ problems on LeetCode.	Profile
Solved 120+ problems on GeeksforGeeks.	Profile
Achieved 4 Rating on CodeChef.	Profile
Active on Codeforces.	Profile

ACHIEVEMENTS

CodeChef: Rating 1811 (4), Global Rank 3896 (Top 1% globally).

dikshakoppad

Codeforces: Rating 938 (Top 35% globally).

diksha85

PROFESSIONAL STRENGTHS

Leadership: Spearheading initiatives, coordinating tasks, and taking ownership of deliverables

Collaboration: Facilitating teamwork, communicating effectively, and contributing to shared objectives

Problem Solving: Analyzing challenges, identifying root causes, and implementing effective solutions

Adaptability: Quickly acquiring new technologies and adapting to evolving development environments

Analytical Thinking: Evaluating problems systematically and making data-driven decisions

Continuous Learning: Actively enhancing technical knowledge through projects, coding practice, and self-learning
